Current Positions and Institutions (if appropriate)	

Part 3 of 3: Supporting Documents:

(3a) Suggested Announcement (250 words or less)

Please provide precise and succinct text for the announcement that outlines the main contributions and their impact.

(3b) Justification of Impact (700 words or less)

An explanation of the significance of the impact that the nominee had on the field. Note that the impact needs not be related to the 25-year old publication and may result from subsequent contributions. Please provide both the opinions of the nominators/endorsers on the significance and verifiable facts, if available.

(3b) Justification of Impact– *continued*

Empty text area for justification of impact.

Nomination Form for the SMA Pioneer Status

(3c) Bio of the Nominee (250 words or less)

Please provide as brief biography of the nominee.

(3d) Reference to a 25-Year Old Contribution

A reference (preferably publicly available) to a contribution (e.g., publication, product announcement, software release, keynote lecture, report, thesis, etc.) related to Solid Modeling that was produced at least 25 years before the nomination date. Please provide the title, the year it was disseminated or produced, venue, institution at which the nominee was working at the time, all other co-authors or contributors, and a URL (if available) where the material can be accessed.
